

NEOMILMAR

FISHERIES & AQUACULTURE

BUSINESS PROFILE

ABOUT US

NeoMilmar Fisheries and Aquaculture is a specialized agribusiness division under Neomilmar Enterprises, dedicated to advancing sustainable fisheries and aquaculture development. The initiative became operational in 2022 and was fully registered in November 2023, formalizing its commitment to structured, compliant, and growth-oriented operations.

Our core focus is on fish production, aquaculture services, and fisheries development, aimed at improving food security, promoting economic empowerment, and supporting environmentally responsible fish farming practices. We combine practical field experience with modern aquaculture techniques to deliver reliable, high-quality fish and professional support services to individuals, institutions, and community-based projects.

Our Vision

To be a leading and trusted provider of sustainable fisheries and aquaculture solutions that contribute to food security, economic growth, and environmental stewardship.

Our Mission

To promote sustainable fish production and aquaculture development by delivering quality services, innovative solutions, and technical support that empower farmers, communities, and institutions

Core Values

- Integrity** – We operate with honesty, transparency, and
- Accountability.Sustainability** – We promote environmentally responsible aquaculture practices.
- Quality** – We are committed to high standards in production and service delivery.
- Innovation** – We embrace modern techniques and continuous improvement.
- Community Empowerment** – We support livelihoods and local economic development.
